DATE MAILED: 06/16/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

***Response to Amendment***

1. The amendment filed on May 03 2005 cancelling all claims drawn to the elected invention (action on the merits filed on March 24, 2005), and presenting only new claims 21-38 drawn to a non-elected invention is non-responsive (MPEP Section 821.03). The originally filed claims 1-20, directed to a method and system for tracing an electronic device transmitting identifying indicia over a global network, the electronic device connectable to a network server through the global network and includes automatically monitoring communications over the global network to identify data transmitted through the global network that contains identifying indicia and upon identification of data transmitted through the global network that contains the identifying indicia , determining the location of the electronic device by tracing the source of the identifying indicia within the global network, which invention is distinct from the invention of new claims 21-38, directed to a method, a machine-readable medium and a system for determining a position of an electronic device within a wide area network and include detecting a physical separation of the electronic device and an associated user and intercepting data of a communication between the electronic device and a second network element including identifying indicia in response to the physical separation and determining a physical position of the electronic device within the wide area network in response to an interception of the identifying indicia.

Since the above mentioned amendment appears to be a bono fide attempt to reply, Applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY 930) DAYS,

whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

***Conclusion***

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles Appiah whose telephone number is 571 272-7904. The examiner can normally be reached on M-F 7:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marsha Banks-Harold can be reached on 571 272-7905. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
